

```
#include<iostream>
#include"stack.cpp"
    std;

int main(){

    int ch,dval, temp;
    cout<<"Enter Decimal Number : ";
    cin>>dval;
    (dval != 0){

        temp = dval%2;
        push(temp);
        dval = dval/2;

    }
    cout<<"Binary Code :";
    display();

    0;

}
```
